[3M Versaflo Respiratory Faceshield Assembly M-206/37299\(AAD\), with Comfort Faceseal. 1 EA/Case: Amazon.com: Tools & Home Improvement](#)

Woodturners Wonders
<https://woodturnerswonders.com/>

Bowl Ratios (best for Oneway coring system)

- 4 ½ X 12
- 6 ½ X 16
- 5 ½ X 14

Elmer's glue vs anchor seal

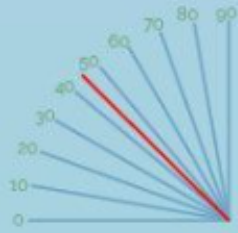

Bandsaw Blades - J&J Bandsaws 931-979-5125 (he also sharpens chainsaw, planer, and table saw blades.

Vegetable oil for bandsaw

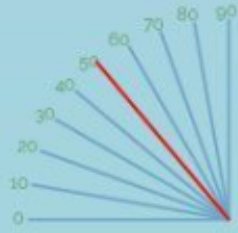

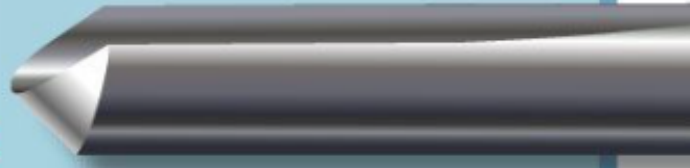

[Wood bowl finish](#) - best to apply three coats with a clean rag - sanding in between coats starting with 320, then 400, then scotch brite before the last coat. Let every coat dry at least 12 hours in between. I like to wipe off excess with another rag.
